

CHASMS IN CARE

UCLA DISABILITY STUDIES HEUMANN COMMUNITY PARTNERSHIPS LAB

***Unseen* Film Screening and Dialogue on Mental Health, Disability, and Citizenship**

Tuesday, November 12, 2024

UCLA Disability Studies proudly presents the culminating event for the inaugural partnership of Dr. Lauren Clark and Keris Jän Myrick, MBA, M.S. for the Heumann Community Partnerships Lab.

A Message from Dr. Lauren Clark and Keris Jän Myrick:

*The event will feature a screening of the film *Unseen* and a Q&A with the filmmaker, Set Hernandez, and the film's protagonist, Pedro. The film *Unseen* was selected to help us explore the gaps in mental health care with a disability justice lens. We will examine how these chasms of care develop and the impact of these systemic barriers on the lives of those who are often unseen.*

Discussion Guide

As you watch the film, consider:

- How can we address the disconnect between our community values and the limited access to mental health services for those most in need?
- How does intersectionality shape an environment where certain individuals fall through (or maybe get 'pushed through') the cracks?
- On a campus where knowledge drives our purpose, how can we contribute to building a more inclusive, caring community?
